TC50 2025 FEATURES

ENGINE

The modern and compact engine features the latest in 2-stroke technology offering class-leading performance and ride-ability. By using a 3-shaft design, the crankshaft is positioned near the centre of gravity which not only benefits mass centralisation but also creates the ideal intake angle into the reed valve delivering top-level performance. Additionally, a power reduction kit is available from Husqvarna accessories which limits the TC 50 to 5.5hp for first-timers and complete beginners.

FRAME

The high strength chromium molybdenum steel frame integrates carefully calculated parameters of longitudinal flex and torsional rigidity to benefit handling and suspension functionality. It guarantees easy handling and precise cornering, along with outstanding stability.

Suspension

Featuring the latest suspension technology, The TC 50 is equipped with 35mm WP XACT-USD forks
