Turn up your emotions

Introducing the dynamic new TRACER 9 from Yamaha. Lighter, quicker and more versatile than ever before – and featuring sleek new aerodynamic bodywork with enhanced ergonomics – this premium next-generation Sport Touring is built to take you and a passenger as far as your imagination will go. Europe's best-selling Sport Touring is completely redesigned with a larger-capacity 890cc 3-cylinder engine producing even stronger torque for intoxicating acceleration. Whether you're pushing hard on twisty mountain roads or covering big distances on the highway, the new lightweight chassis ensures sport bike agility with tourer stability – solo and two-up. A new 6-axis IMU governs the lean-sensitive electronic rider aids that give you precise control in varying surface and weather conditions – while twin TFT meters and full LED lighting underline this versatile sport tourer's premium specification. With full 3-bag capability and a 350 km plus range, the TRACER 9 is built to turn up your emotions and take you into a new world.
